RE: State v. Haeg - Case No. 4MC-04-024 Cr.

Dear Mr. Leaders:

We looked through my file & found that some items of discovery (pursuant to Alaska Criminal Rule 16) have never been provided as attorney Arthur Robinson requested from you in the discovery letter of December 13, 2004 (see attached copy). Please send them to me or let me know where to pick these up as soon as possible.

The items not received include but are not limited to:

1. List of all potential witnesses, including expert and/or rebuttal witnesses along with their written or recorded statements – along with names & addresses of anyone with knowledge of relevant facts.
2. An intelligible copy of the tape(s) Trooper Gibbens made during my interview & his interview with Tony Lee recorded in the same quality as the original recording.
3. Relationship of photographs to elements charged, any material or information tending to negate guilt or reduce punishment including information held by anyone who participated in the investigation or evaluation of the case, and all notes, emails, faxes, and/or correspondence concerning any or all plea negotiations and/or offers.
4. I would also like all of my possessions returned immediately that were not used as evidence as you agreed to with Mr. Robinson. These items include but are not limited to:

6 pairs bunny boots	-	Kodak Camera I2266311
Olympus Camera #987753	-	Iridium Satellite Phone (Motorola 9500)
Snares & traps taken from home	-	Rand McNally Atlas of Alaska/other maps
in Soldotna & Lodge	-	2 David Clark Headsets
Oil	-	Cord/Rope

Let us know as soon as possible if these things will be delivered or where we have to go to pick them up. We will be in Anchorage at our next meeting with the FBI on Thursday the 3<sup>rd</sup> and could pick these items up at this time if they are in Anchorage. If there is any problem with these requests please let us know. If you have any questions please give me a call.

Sincerely,

David Haeg, P.O. Box 123, Soldotna, AK 99669, 907-262-9249
